

To manage material safety data sheets (MSDSs), disseminate them within the company and / or distribute them, MIRS™ offers several MSDS solutions. In addition to the comprehensive MSDS management functions, the basic MSDS module also provides a quick and easy-to-use OSHA HazCom (Right-to-Know) compliance solution on your own internet or intranet site. Or, for a robust PC-based compliance tool, add the MSDS NETVIEW module.

MSDS

stand-alone module

MSDS Management: Flexible and Powerful

The MIRS™ MSDS module can store MSDSs in OSHA 9-part, and ANSI, Canadian, European, and GHS/ISO 16-part formats. The flexibility of the MIRS™ MSDS module allows many different methods to enter MSDSs into the system, a wide variety of searching and reporting features, as well as the ability to display your MSDSs in HTML for convenient internet/intranet viewing.

MSDSs can be entered into the system in a number of ways:

- **Text enter** or use **MSDS Authoring Wizard** to generate MSDSs.
- **Download and Import** PDF or HTML MSDSs from websites, CD-ROMs, etc.
- **Scan** paper MSDS and store as images. MSDS module accepts image files from any TWAIN-compliant scanner. Many standard graphics file formats are supported.
- **Space saving:** automatically compresses MSDS images for storage.

MSDS Management: Timesaving

MSDS module offers many features to enhance productivity for MSDS management. Easy-to-use selection lists let you quickly enter MSDS information:

- Select a Material's ingredients from the integrated Regulated Chemical database. The Regulated Chemical database provides information such as CAS#, chemical name and regulatory status, physical state, and EPA Hazards, to speed creation of MSDSs. *Expand the database to 150,000+ chemicals with the Chemical List Extension (CLE) add-on module.*
- RCRA code list, UN/NA code list, DOT Hazard code list, OSHA PELs and ACGIH TLVs, provided with the software
- Extensive customizable phrase library, including 500+ ANSI phrases (also in French and Spanish)
- Save As" function to quickly replicate similar MSDSs

MSDS Management: Value

Powerful search and print functions:

- Search MSDSs by any number of retrieval criteria, including synonyms created by you. MSDS and summaries can be printed, displayed on the screen or saved to file.
- Query and report your MSDSs' chemical components against *more than 60 regulated lists.*
- View, print, fax or email MSDSs, labels, and reports. Create PDFs or text files.
- Supports embedded graphics, such as logos and PPE symbols
- Keep your MSDSs up to date with built-in audit reports
- Archive MSDSs automatically for compliance with OSHA 30-year rule
- Export MSDSs to HTML for simple publication on the Internet or your company's intranet.
- **Track Hazards and Print labels:** HMIS I, II, NFPA, WHMIS or create your own hazard ratings systems and custom labels

MSDS NETVIEW

add-on module

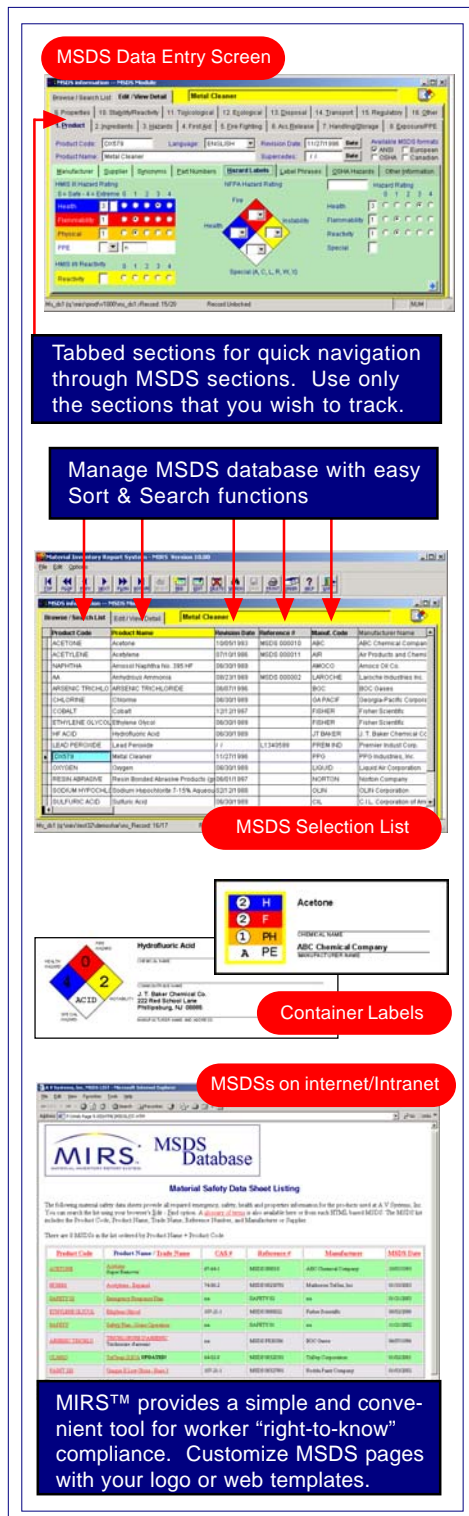

MSDS module is required for this add-on module

Employee right-to-know: provides employees read-only access to text-entered or scanned MSDSs through the facility's PC network.

Audit trail: MSDS requests can be automatically logged (requires the MSDS HAZCOM module).

Multi-user: includes access by 10 concurrent users, additional access available.

LET MIRS™ TAKE THE HAZARD OUT OF YOUR EH&S COMPLIANCE!

MSDS Data Entry Screen

Tabbed sections for quick navigation through MSDS sections. Use only the sections that you wish to track.

Manage MSDS database with easy Sort & Search functions
